9. OLD BUSINESS

A. Election Commission - Election Night Reporting Update

Joe Sobecki, Executive Director of the Election Commission, presented an update on the new Election Night Reporting tool, as attached hereto. He noted that, as requested, an asterisk was added to indicate multi-county races. Member Elliott suggested adding an explanation saying the multi-county race results reflects DuPage County only.

Chairman Wiley informed the committee that a landing page was added by IT to allow website visitors the option to select the County's main website or the election results website. This page will be activated on election night.

Chairman Wiley then said he was surprised at the lack of an FAQ on the election results website. Mr. Sobecki responded there is an "Overview" section that includes instructions
on using the site. Don Carlsen, CIO, suggested changing it to say FAQ. The committee agreed.

Member Anderson asked if a link to the election results website could be added to the County's home page ahead of the election. Mr. Sobecki said a press release was sent out with the new link and information about the new tool. He said there are several areas of the main site that link to the new website as well. He added that another press release will be sent out a week before the election to get the link out to the public.

Mr. Sobecki then reviewed the contingency plans, should anything happen with the website on election night.

Chairman Wiley expressed concern about constituents who may use a search engine, such as Google, to find the election results and end up on the County's main website instead. Mr. Carlsen suggested the possibility of taking out a Google Ad to assist people in reaching the correct website. Staff will look into the cost.

Chairman Wiley then asked if it would be possible to add a section where voters can check their status, polling place, sample ballot, etc. Mr. Sobecki said that information can be added.

Mr. Sobecki finished by saying the website - www.dupageresults.com - is live and accessible.

8. DISCUSSION

A. FY2017 Strategic Plan Year-End Report

Don Carlsen, CIO, provided a year-end report for IT and GIS FY17 Strategic Plans. He said all projects are on-track and going well.
He noted that the Police Records Management System (PRMS) project's go-live date has been moved from spring to winter 2018. He added that the Emergency Telephone Systems Board (ETSB) is heading the project.

Member Grogan asked if the estimated 2019 timeline of the phone replacement system is going to change the cost. Wendi Wagner, Network Systems Manager, said a needs assessment will be done in June and will give them a better idea of cost. Mr. Carlsen noted he anticipates the cost will actually go down.

Member Fichtner then asked if there is a "drop-dead" date on the current system. Ms. Wagner said we are currently on Version 6 and the County can only go up to Version 7, so she is estimating we can get through 2019.

Mr. Carlsen told the committee he will give an FY18 first quarter Strategic Plan report in March.

Engagement Letter

Date: January 11, 2017
To: Debbie Hanson, Deputy Director /ERP Project Manager DuPage County
From: David Clark
Re: Infor Absence Management – Issues Analysis, Solutioning and Implementation Support

Overview

DuPage County seeks consulting support to address issues with the Infor Absence Management system.

RPI Consultants (RPI), an Infor Alliance Partner based in Baltimore, Maryland, has been providing implementation, process improvement and system assessment services to the Lawson community since 1999, and is pleased to present this engagement letter to assist DuPage County.

Background

The Absence Management issues that DuPage County would like to address include:

- Carryover over at the end of the year should be, per policy, 10 days. A day is calculated at 1/10th an employee’s biweekly hours. For example: a 75 hour employee should carryover 75 hours of vacation, an 80 hour employee should carryover 80 hours of vacation. When we run the carryover jobs at the end of the year, Infor leaves a maximum carryover balance of 80 hours for all employees, even part time.
- Infor awards personal days to all full time and eligible part time employees at the beginning of the year. Even the new hires that aren’t yet eligible to receive them as they haven’t yet completed their required probationary period.
- Infor allows carryover of personal time for all employees. All of our personal time employee groups do not get to carryover personal time.
- When an employee returns from a leave of absence, their employee absence master assigns a new accrual date for sick and vacation. Sick should be accrued on the 1st of every month and vacation on their adjusted hire date. Infor changes their date to the date they return from their leave of absence.
- An LP80.1 (Employee Absence Plan Transfer) should be used when an employee goes from one employee group to another due to a position change. That doesn’t work correctly and it takes, on average, a couple cycles to manually transfer their balances and close out the old balances from their old position.
- Infor removes comp time from balances without the employee reaching the carryover limit and we have to manually add the time back in.
- New hires don’t have sick start at the 1st of the month like they are supposed to. They accrue on their hire date.
- Not all positions are tied to the correct employee group for absence plans.
- Infor cannot pro-rate vacation allotments for employees that move up to a new mid-year.
Services Provided

RPI will provide a targeted consulting resources to offer guidance and support with the analysis, and will support the implementation of any feasible solutions in the Lawson system. RPI resources will assist with:

- Discovery and analysis
- Testing & validation of the solutions
- Support for moving the changes to the Production environment

Assumptions

- DuPage County will be responsible for ensuring the availability and coordination of its personnel and technical support team to support this initiative.
- DuPage County will provide required access to execute the requested tasks.
- DuPage County will ensure timely decision making to meet relevant deadlines.

Estimated Effort

This engagement letter will encompass all requests up 60 hours of consulting services:

**Action Requested** - Identify the action to be taken and the total cost; for instance, approval of new contract, renew contract, increase contract, etc.

Change order to correct the fiscal year breakdown of the contract, as per the attached purchase requisition. We will need to extend the contract through 11/30/2020.

**Summary Explanation/Background** - Provide an executive summary of the action. Explain why it is necessary and what is to be accomplished.

In 2012, the County Board approved a contract with Emphasis for software maintenance and support for the Sympro Treasury software for the ERP. The vendor never billed the County for the first two years of the contract. After discussing the billing issue with the vendor, we are adjusting the maintenance period to extend two more years, as it is within the original terms. We will then adjust the fiscal year breakdown on the vendor agreement to reflect this change.

**Strategic Impact**

Customer Service

Select one of the five strategic imperatives in the County’s Strategic Plan this action will most impact and provide a brief explanation.

Keeping software and systems functioning ensures that financial accounts are managed responsibly and accurately.

**Source Selection/Vetting Information** - Describe method used to select source.

This contract was originally put out to bid with the rest of the ERP project in 2011, per P11-006.

**Recommendations/Alternatives** - Describe staff recommendation and provide justification. Identify at least 2 other options to accomplish this request.

1) Extend the contract with the new maintenance and support schedule.
2) Do not extend contract.

**Fiscal Impact/Cost Summary** - Include projected cost for each fiscal year, approved budget amount and account number, source of funds, and any future funding requirements along with any narrative.

We will need to budget this maintenance out of 1000-1110-53807 as follows:

- FY19 - $20,837.00
- FY20 - $21,879.00

Action Requested - Identify the action to be taken and the total cost; for instance, approval of new contract, renew contract, increase contract, etc.

Extend the expiration date of PO to March 15, 2018, with no increase in cost.

Summary Explanation/Background - Provide an executive summary of the action. Explain why it is necessary and what is to be accomplished.

We contracted with SWC Technology Partners, Inc. to assist us with consolidating and decommissioning our on premises Exchange servers. This project was scheduled to be completed by 11/30/17, however due to unforeseen changes that needed to be made to a number of internal applications before we could fully decommission, we have needed to extend the time line for this project into FY18.

Strategic Impact
Financial Planning - Select one of the five strategic imperatives in the County's Strategic Plan this action will most impact and provide a brief explanation.

This reduces the cost of licensing and hardware support for the email system.

Source Selection/Vetting Information - Describe method used to select source.

SWC Technology Partners originally installed the Exchange servers in our environment and also assisted with the migration to Office 365. They are very familiar with the setup. Using another consultant would require more investigation and planning time and costs. Additionally, the delay has occurred due to changes to applications that our staff needed to make, not due to any issues with the consultant’s time.

Recommendations/Alternatives - Describe staff recommendation and provide justification. Identify at least 2 other options to accomplish this request.

We recommend contracting with SWC Technology Partners due to their expertise and knowledge of our environment.

Fiscal Impact/Cost Summary - Include projected cost for each fiscal year, approved budget amount and account number, source of funds, and any future funding requirements along with any narrative.

$4,590.00 out of FY18 (unbudgeted) - Professional Services 1000-1110-53020

### DESCRIBE ITEM BEING JUSTIFIED AND ITS FUNCTION:

Each year we need to renew our IBM software and support contract. This is done through an IBM Passport Advantage program. To get final pricing you need an authorized IBM Business Partner, since 2009 we have used Business IT Source c/o IBM Preferred Partners. We have authorized IBM Passport Advantage Program that Business IT Source is our selected vendor for the IBM Passport program. So if there are any outstanding issues Business IT Source can handle directly with IBM Passport.

### THIS IS A SOLE SOURCE BECAUSE VENDOR IS:

- ☐ sole provider of a licensed or patented good or service
- ☐ sole provider of items that are compatible with existing equipment, inventory, systems, programs or services
- ☐ sole provider of factory-authorized warranty service
- ☐ sole authorized distributor – manufacturer has established territories (e.g. Caterpillar parts) (Please attach letter from the manufacturer)
- ☐ the manufacturer (please detail below or attach information regarding why only this manufacturer’s product can be used)
- ☑ the software manufacturer (and sole maintenance/update provider)
- ☐ other – (please detail below or in an attachment)

### WHAT NECESSARY AND UNIQUE FEATURES DOES THIS VENDOR’S PRODUCT OR SERVICE PROVIDE WHICH ARE NOT AVAILABLE FROM OTHER VENDORS? (Please be specific)

A relationship has been approved by IBM, that Business IT Source will process our IBM Passport Advantage Program.

### HAS THE MARKET BEEN TESTED LATELY (LAST 12 MONTHS) ON THE APPLICABILITY OF SOLE SOURCE? (If not, why not?)

It is a renewal for IBM software that was purchased over the years to run our AS/400 and other web applications which was purchased via the county in 2007.

### WHAT STEPS WERE TAKEN TO VERIFY THAT THESE FEATURES ARE NOT AVAILABLE ELSEWHERE? WERE OTHER BRANDS/MANUFACTURERS EXAMINED? (Please list other products or services examined – include names & phone numbers of people contacted)

Send quote to another vendor to check on pricing. The price was similar and since we had Business IT Source already set up and approved with IBM to be the reseller, we stayed with Business IT Source.

The DuPage County Procurement Ordinance requires the following written disclosures prior to award:

1. Every contractor, union, or vendor that is seeking or has previously obtained a contract, change orders to one (1) or more contracts, or two (2) or more individual contracts with the county resulting in an aggregate amount at or in excess $25,000, shall provide to Procurement Services Division a written disclosure of all political campaign contributions made by such contractor, union, or vendor within the current and previous calendar year to any incumbent county board member, county board chairman, or countywide elected official whose office the contract to be awarded will benefit. The contractor, union or vendor shall update such disclosure annually during the term of a multi-year contract and prior to any change order or renewal requiring approval by the county board. For purposes of this disclosure requirement, "contractor or vendor" includes owners, officers, managers, lobbyists, agents, consultants, bond counsel and underwriters counsel, subcontractors and corporate entities under the control of the contracting person, and political action committees to which the contracting person has made contributions.

I have made the following campaign contributions within the current and previous calendar year:

**Additional Information**

**Election Results Reporting System Infrastructure**

The public pages are behind CloudFront, an Amazon Content Delivery network with thousands of machines that provide content to the end user. Using this service, Scytl has observed loads of 30M+ users on a single election.

In the 2016 General Election, there were 5.7 million pageviews on the Election Night Reporting site in a two day period. 79 clients were using the application, including five statewide deployments.

During major election years, load testing is conducted by Scytl typically twice per year. The first round of load testing for 2018 began the last week of February. Scytl closely tracks scheduled elections and will upscale the servers based anticipated turnout approximately a week and a half prior to an election.

Server load is monitored, in the event of an increased load a determination will be made if additional servers are required to be brought online.

**County Infrastructure**

SWC performed a 30 load test on February 1, 2018. During this test they observed no considerable impact in performance.
Measures to direct voters to the site on Election Night:
- simplified URL: www.dupageresults.com
- de-activation of previous results page
- new site linked directly from main site
- splash page on County site to minimize resource usage for quick redirects
- search engine optimization

Contingency Measures:
- ENR System access issues
- County internet issue
